GRAND UNION HOTEL
TO OPEN MONDAY

ELECTION FOR
SCHOOL TRUSTEE

The handsome new Grand Union hotel at Coleman has been completed and, architects, masons, carpenters, plumbers, etc., have all left for other scenes of labor.

The new hotel will be officially opened on Monday next, when it is expected a number of prominent representatives of the Calgary Brewing Co. and others of the province who are interested in the better class of hotel will be present.

Without any exception, the new hotel at Coleman is outstanding in fine architecture, plan and equipment. Nothing whatever has been left undone that could be desired by the permanent or transient guests. Luxurious are the fittings throughout, including the dining room and the room set apart for the alleviation of the parching thirst. The dining room if most elaborately fitted and decorated and no doubt will be well patronized.

The new building contains about forty bedrooms, as well as a number of suites and private and semi-private bathrooms. Mr. Bell, the proprietor, feels justly proud of his new establishment and we bespeak for the genial host many years of success.

AN IMMENSE CABBAGE

On display in the window of the F. M. Thompson Co.'s main store will be seen a splendid specimen of a savoy cabbage, grown on the farm of Frank Celli at Creston. The head is the largest ever seen around here and tips the scale at 22½ pounds.

Inspector Allan J. Watson has been selected to succeed Mr. J. E. Hodgson as superintendent of the Lethbridge schools.

Mr. Dutil occupied the chair and on motion by Mr. Chappell, the resignation of Mr. Hamilton was accepted and the secretary was instructed to write Mr. Hamilton, expressing the board's appreciation of the valuable services rendered by him and regretting his connection with the board should, for the time being, at least be severed.

Mr. Howe, Mr. Frank

Wright was appointed returning officer to conduct an election to fill the vacancy on the board caused through Mr. Hamilton's resignation.

Accounts included one from Dr.

Hackney, in connection with recent survey of school children, amounting to \$407.55. This account was ordered referred to Mr. Hamilton for explanation as to instructions given by him.

Other accounts were: Mrs. Charles

Bell (nurse) \$35.00, Blairmore Enterprise \$22.60, West Canadian Collieries (repairs to west ward school) \$13.20, Osborne Co. (for 16 desks) \$218.00. These were ordered referred to finding committee to be paid if found correct.

A summary of the report of Dr.

Hackney upon the survey of school children was submitted as follows:

Speciably examined and fitted for glasses, 47.

Speciably examined, but not fitted for glasses, 4.

Passed elementary test in vision, 365.

Speciably examined, but not recommended for glasses, 64.

Defective hearing, 4.

A communication was received from the Provincial Red Cross, offering assistance where necessary to children lacking proper attention, etc.

This communication was filed.

Communication was also received from the secretary of the Institute of Technology and Art, stating that Mr.

James Ross would be in Blairmore on Tuesday, September 30th, and would address a public meeting on that occasion on the subject of night classes and the various courses offered by the institute.

On motion by Mr. Chappell, secretary was instructed to have notices posted, calling a public meeting in the school house on the evening of Tuesday, September 30th, commencing at 8 o'clock.

Mr. L. Dutil was appointed temporary chairman of the board until such time as a permanent chairman is appointed, with power to sign cheques, drafts, etc.

LOCAL MAN LOSES ARM

Sam Giampietri, otherwise known as Sam Bombino, met with a serious accident while hunting with a chum in the woods near Coleman on Tuesday morning. After resting a short while, he attempted to pick up a shot gun, grabbing it by the barrel. The gun was loaded and evidently cocked and in some manner the trigger tripped, the charge entering his arm just above the wrist, grazing the flesh for several inches, some scattered shot entering his face and shoulder. He was moved to the Coleman hospital, where doctors found it necessary to amputate the arm, just below the shoulder.

Sam is one of the best known of

our citizens, being for a number of

years connected with the Blairmore

band as a cornetist. He has resided

here for a number of years and has

a wife and several small children.

DEATH OF FRED KROLI

He was but 24 years of age and for some time had been practically the sole support of his parents, sisters and brother, who reside in Frank. A finer received of the death of Fred Krol, type of young man it would be difficult to find. Quiet, unassuming, high-spirited, at Portland, Oregon, following principled and kind, he was loved by all and will be keenly missed.

(Con'tined)

Once into the main street, Seymour found a semblance of permanency in the town. The buildings were two-story trading concerns, built up of logs and surprisingly fronted by show windows. The one hotel, in distinction from several bunks houses, had two stories, and a porch fronting the second. Seymour noted also a restaurant, a chop house, a pool hall, several "soft" drink emporiums—all of rough, boisterous character.

A stack of signs, mounted with cedar shingles, crouched beside the hotel and supported the sign:

OFFICE OF SHERIFF,
GOLD BRANCH
OFFICE OF CORONER

Evenly it was from the door of that office that Deputy Coroner Hardley had seen the impostor set out on his fatal ride.

Now this shack stood the temporary post office which divided a store with a hardware shop and a drug recorder. The First Bank of Gold occupied a tent with a wood floor. For the reassurance of customers and for information of all that went on a house which was painlessly palatial permanent home is under construction across the street." Glancing in that direction, the stranger saw a cluster of corrugated iron, awaiting a roof.

A gold, at this season of the year, in a mighty town, so the streets had been practically deserted, and small processions entered. Even though most of the population was at work up the creeks, there was something of an out-pouring into the Street as the news of the shooting spread.

Some fifty men and a scattering of women ga'ered to mill about the freight wagon and after the oxen were harnessed, Hardley's team started with the vantage of his saddle seat. Seymour studied their faces as they received the news, but caught no trace of any emotion that he could see. All seemed genuinely shocked; yet deeply moved. He heard many express regret over such a drastic blow to the law. If any rejoiced, they did so secretly.

Deputy Hardley consulted with important citizens identified for Seymour by the one nearest his station, by the man who had just reached him, and the man whose name was putting. The color of his countenance was high in the girl's cheeks. But no hint that she ever had seen him before came from the young man who within hours had been so solicitous of his welfare as to try to keep him from entering the brush in search of the murderer. Her eyes

in turning Kaw to be about his son, Seymour came face to face with Ruth Dupre, who, evidently had just reached town, and was dressed poorly until I started to take it. I just felt as though I was tired out all the time, and would take weak, fainting spells." My nerves had both given out, and I had little rest, day or night. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles, and it helped me wonderfully.

"I am doing what I can to publish this good medicine. I lend that little book you sent me to any one who can help. You will find my name in the paper, and my name in regard to the Vegetable Compound if it will serve to help others."

Mrs. HARVEY MILLIGAN, R. R. No. 2, Lethbridge, Alberta.

In recent canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 100,000 replies were received and 96 out of every 100 said they had been helped by its use. This medicine is for sale by all druggists.

not avoid me; they sharply did not hit him.

Having administered this puzzling cut direct, she focused on the gallant figure of Brewster, who rode alongside her, his smiling face alight with undoubted admiration.

"What has happened?" Seymour heard her ask sternly.

"Your daring sergeant-of-staff has been murdered," Brewster's reply was fittingly low.

The girl's eyes flashed angrily.

"Terror! I must say, Mr. Brewster, and I'll thank you not to connect me with the poor brave man by saying my sergeant—"

"We have been seeing so much of this Bart person, Ruth, you hadn't had any time for your old friends. Of course I'm sorry for the way he's been put out."

"That 'but' does you small credit. Who do you suppose—"

"Hardley, hasn't decided yet," Seymour said with a flicker of contempt in the neighbor's eyes. "Better come and have dinner with me at the hotel; this isn't our tragedy."

Her dimpled smile increased, and she gathered her reins.

"I don't know what you mean," she said with decision.

"I must carry the dreadful news to you."

"Who is the little woman in gray?" he asked casually.

"She's a widow, but not looking for a second," Cat's face was more twisted than ever.

"And I'm not a widow first," Seymour set him straight. "I asked because she seemed more affected than the other women by Hardley's tribute to her."

The old ox driver seemed reassured. "She's just a big-hearted Jane owner and co-widow of the Home Remodeling Company," he said. "The sergeant boarded with her before he became lost in the royal uniform. I boarded there, too, until she turned him down, but I'm not a widow either."

OCCUPATIONS OF A MODERN PRINCE

The world-wide spread of democratic ideas has curiously affected the occupations of princes. In the age of chivalry, when kings ruled by divine right, when they enjoyed unbound power and unbridled personal liberty, the chief business of a prince was to be, like Kipling's "Fuzzy-Wuzzy," a "first-class fightin' man." If he made war, he put on his shining armor and went forth to defend his cause with mace and battle-axe; if need were, to die fighting in the midst of his knights and squires. To stay at home and read bulletins from the front, swallow up Jonah. And Jonah was in the belly of the fish for three days and then, that in our time! an English prince, who has no voice whatever in the government of his country, and yields no power unless it be to set a fashion, is not permitted to risk so much as a finger nail in battle. Honorary colonies of a dozen regiments, may not accompany one of them when it marches off to meet the enemy.

The introduction of firearms into warfare swept chivalry away and transformed fighting princes into carpenter knights. A prince or a noble was cheerfully willing to be clef to the chin in a fair hand-to-hand fight with his equals, but he was made uneasy at the thought of being killed by a chance shot from the musket of some base-born varlet hiding in a hedge. That is one reason why, since Charles II gallantly led a cavalry charge at the battle of Worcester in 1651, no English prince has risked his life in battle.

It was perhaps owing to the worthy example of Albert, the Prince Consort, who inspired the Crystal Palace exhibition in 1851, that English princes took up the arduous and wearisome occupation of dedicating memorials, opening bazaars and inspecting hospitals and industrial plants. But it is hardly conceivable that such an occupation continued month in, month out, can appeal to an alert young man like the Prince of Wales. No slave of a time clock is more subject than he to the remorseless schedule of trains. He must invariably be cheerful and no matter what temptations may lure him away he must be at Little Paddington at two-thirty to lay the cornerstones of the new infirmary.

No wonder that the Prince, feeling the nervous strain of a long series of public appearances in his dull role as representative of a majesty that no longer exists, is forced to break away now and then for a month's holiday at his ranch near Calgary. It may be, too, that his reckless daring as a horseman is simply his expression of protest at the humdrum life that he is compelled to lead. Only to enjoy one hour of the glorious life of his ancestors at Crewe and Agincourt! If only he might smite a prime ministerhip and thigh—do something to prove to his countrymen that the sceptre is to be no longer the bauble that Cromwell made it!

American Ex.

Under the Wheels

In eighteen months of the world war, 48,000 American soldiers were killed upon the battlefields of France.

In the same length of time, 96,000 people had been killed by automobiles in the streets and highways of North America. Of this vast number 25,000 were little children.

No one can say, in view of these terrible figures, that everything possible is being done to lessen the toll from automobile accidents—Montreal Herald.

Quinsy is an exquisitely painful affection of the tonsils and of the surrounding parts. It is generally a suppuration of the tissues round the tonsils, and its terrible pain is caused largely by the swelling parts—a condition that not only makes swallowing a torture but also makes the patient feel as if he were to suffocate.

As soon as the abscess of a quinsy is ripe it should be opened by the surgeon; in that way the sufferer may be saved two or three days of agony.

Some people have tonsils that are

naturally too large, and enlargement of the tonsils sometimes runs in families. Diseased teeth discharging their germs into the saliva often spread their infection to the tonsils, or infection may be carried to them through inhaled dust. Enlarged septic tonsils or tonsils that are always giving rise to trouble in one form or another should come out. There is no minor operation that is followed by more joyous results than the removal of the wrong sort of tonsils.

LIKELY TO ORGANIZE

NIGHT CLASSES

A meeting of those interested in night classes was held at the school house on Tuesday night. Mr. J. H. Ross, representing the Provincial Institute of Technology and Arts, Calgary, was present and addressed the meeting, outlining fully what the government was prepared to do in cooperation with the school district towards the establishment of courses in mathematics, technical English, electrical and steam engineering, mining and dressmaking and millinery, or any other technical subject.

Of those attending the meeting, only we were prepared to enter the classes, and the meeting decided to postpone the matter for a few weeks, or until the strike settlement, and in the meantime to take the names of sufficient pupils to make the operation of several classes worth while.

We understand that a similar stand is being taken at Coleman, and that immediately following the strike settlement, Mr. Ross will return to The Pass and set the classes going.

The average course consists of about thirty lessons and the cost of Europe to Canada, with the intention of proceeding at once from Canada to the United States. British subjects are not permitted to migrate to the United States until they have resided indirectly the pupils. So that these courses are placed at the disposal of Continental Europe will not be admitted anyone wishing to take them at very low cost, not exceeding from dence of two years in Canada.

\$5.00 to \$8.00.

Circulars will be issued shortly, outlining the plan, and it is hoped a large number of young men and women will avail themselves of this exceptional opportunity.

MERCOAL, ALBERTA, GETTING ON THE MAP

A party of about fifteen local miners left Coleman on Saturday night's train to work in the Saunders Ridge Coal Company's mine at Mercoal, Alberta. This mine was purchased last spring by the McGillivray Creek Coal & Coke Co. interests, and since they acquired the property a great deal of development work has been done, besides increasing the output of coal which has now reached something over one hundred tons per day. When the company's present development plans are completed this mine will be one of the biggest producers in the domestic field in the province. The coal in this mine is far superior to that mined at either Lethbridge or Drumheller, and is so hard and of such a high grade that it is anticipated the mine will work the year round—Coleman Journal.

Among those to go to Mercoal from this district were: Coleman—Fraser McLeod, Alex. McKinnon, Neil McKinnon, David Davidson, C. Makin, A. Anderson, J. Atiken, R. Tennant, J. Nash, Martin Larsen and several others. Mr. Allan Hamilton went from Blairmore to act as general manager for the Saunders Ridge Coal Company.

The regulations emphasize the inadvisability of persons coming from Europe to Canada, with the intention of proceeding at once from Canada to the United States. British subjects are not permitted to migrate to the United States until they have resided indirectly the pupils. So that these courses are placed at the disposal of Continental Europe will not be admitted anyone wishing to take them at very low cost, not exceeding from dence of two years in Canada.

E. P. Ranch Improving Western Stock

(Top)—The Prince of Wales' best grass cutters are here seen at work on his ranch at High River, Alta. They are a famous herd and include many prize winners. (Left)—"Will Somers," a famous race-horse belonging to His Majesty the King, and loaned to the Prince of Wales. In the distance the Japanese mountains are visible. (Right)—"King of the Fairies"—a rafter and grand champion Shorthorn bull imported and owned by the Prince of Wales and one of the many fine animals on the Prince's Ranch at High River on the Calgary-Lethbridge branch of the Canadian Pacific Railway.

To go up to approach the E.P. Ranch is from Calgary to High River, 40 miles south, on the Canadian Pacific Railway. From High River one has to drive southwest a distance of 35 miles through one of the richest grain-growing and stock-raising countries in North America. In the distance the Japanese mountains dip the clouds and below, way-winded, are the foothills. The road cuts through the centre of the "Bar" range and about one-third and a half from the head of the "Bar" range, way up among the pines where the Prince is now living is seen through a pretty gully. It is a homelike looking place typical of many a rancher's home in "Sunny Alberta." Here his Royal Highness goes "buckaroos."

The Prince of Wales has never ceased to exhibit a keen interest in his ranch, and fresh indications are periodically given of the importance he attaches to it. On his return from Canada to England in September before returning to England, the Prince made arrangements for the shipment of some of the best stock in the British Isles to the Canadian West. Thoroughbred horses came from the Royal stall, Shorthorn sheep from the Duke of West-

minster's estate, and Hardy Dartmoor ponies from the Devon Moors, a type of animal previously unknown in Canada. From time to time since then fresh additions of the most excellent stock have been made. The work still continues.

In all areas such as Western Canada, which has for years devoted itself to the elevation of the quality of livestock and has become internationally famous for the superior type of its horses and cattle, illustrations must be given of the direct influence to be exercised by the Prince is one of the saddest mistakes of the press.

At his ranch the E.P. Ranch has come to play an important part in the Western Canadian live-stock industry, and it has done not a little in the development of a more sympathetic understanding for Canadian agriculture in the Dominions of the Empire its continuance and promotion an encouragement to the western live-stock industry, fail in the future, and a stimulus to the attainment of perfection in breeding.

JUSTICE AND PUBLICITY

From The Chicago Tribune.

Criminal justice in America is now a Roman holiday. The courts are in the Colosseum. The state's attorney's office is an open torture room of human souls. Exposure of the processes of justice, originally a public safeguard, has been perverted into a public danger. They have been exploited as a field for popular amusement. They are a rich forge for sensation mongers and the yellow press. Their publicity uncontrolled is debasing American thought. It is contributing to the delinquency of criminal justice.

The Franks case has been a three months' moral pestilence imposed on our people before the trial. It is an aggravated instance of what has happened with increasing frequency for two decades since the Thaw trial and before. There is reason for the statement by the Chief Justice of the United States that the product of our judicial machine is a national disgrace. It has been turned into a public show.

The injury to justice is in publicity before the trial. Newspaper trials before the case is called have become an abomination. The dangerous initiative that newspapers have taken in judging and convicting out of court is journalistic lynch law. It is mob murder or mob acquittal in all but the overt act. It is mob appeal. Prosecuting attorneys now hasten to the papers with their theories and confessions. Defense attorneys do the same. Neither dare do otherwise. Half wits juries or prejudiced juries are the inevitable result.

The Tribune has its share of blame in this. No newspaper can escape it. They have met demand, and in meeting it, stimulated public appetite for more: "The old dilemma as to which comes first, demand or supply, the newspaper or the people's demand for the newspaper," says Frances Fenton in The Journal of Sociology, "has given place to a point of view in which we recognize the interaction of demand on supply and of supply on demand. The control by the consumer of the quality of the supply of any commodity is difficult." But public appetite remains the dominating condition. Behind press sensationalism is

public demand and behind that is the human craving for excitement. Papers that refuse to accept this harsh discipline of public demand will die. Many have died. A debased currency always will dispel a sound currency.

The slide downward is inevitable. Who can deny that it is founded on authentic human nature? General reform must be undertaken or none at all. The nation's press must act together.

There is one remedy. Drastic restriction of publicity before the trial must be imposed by law. England by custom and by law imposes such restrictions. English papers print only the briefest and coarsest statement of facts before the trial. Three papers there were fined heavily not long ago for news reports that to us were mild. Publicity before the trial should be restricted, it may be, to official statements by police or state's attorney. If that be unfair to the defense, some other rule should be worked out. It is a problem suitable for the American Bar Association to take up. In conjunction with representatives of the press a fair but stringent law could be devised.

The Tribune advocates and will accept drastic restriction of this preliminary publicity. The penetration of police systems and the courts by journalists must stop. With such a law there would be no motivation for it. Though such a law will revolutionize American journalism, though it is not financially advisable for newspapers, it still is necessary. Restrictions must come.

It will in no way threaten the freedom of the press. It is only a delay. It is enforced waiting so that the final instruments of justice may have a chance to operate. "Public sympathy, against or for, an accused person may influence the jury in determination of guilt," says M. K. Wiesner in a recent study of the effect of the press on crime control in Cleveland. "Human interest is the excuse; corruption of the community's standards may be the result." The case against preliminary publication of crime news is irrefutable. The problem must be met by law.

This must be balanced by full publicity for the trial itself. The hard

won principle of public justice can not be denied. No matter what the sacrifice, the administration of justice in principle must be public. The wider the publicity, the better.

For the protection of democracy in the machinery of justice is not in principle wrong. That and only that can insure a judicial system adapted to the public and safe for the public good. Great trials have proved it. The trial of seven bishops at the instance of King James was followed with intense attention by the public and the acquittal came as the prophecy of the Stuart's fall. The witchcraft trials in Boston were public controversies that led to the fall of ecclesiasticism in America. About the courtroom windows in the Peter Zenger trial, the New York populace gathered, with a raised window sash for their radio. The injection of a public interest in the trial by Andrew Hamilton overruled the legalistic definition of libel. It freed Peter Zenger and established free press in America. Today one hundred million citizens have the same right to hear their courts' proceedings that one hundred thousand had then.

Secrecy in trials always leads to corruption. As publicity once forced justice to the seven bishops and to Peter Zenger, it will in the long run bring justice in modern cases. It will regenerate the courts.

The principle of court publicity remains the same regardless of the population or the instruments of information service. For years, the London Times and other papers in Europe and America published news reports verbatim of court trials. Even the details of the Oscar Wilde trial were reported in The London Times, the most "conservative" newspaper in the world. That was the widest area of publication possible at the time. Today the radio extends beyond that field.

In spite of the adverse vote upon

The Tribune's proposed broadcasting of trial proceedings, it is bound to come.

As an instrument of public information the radio is no different in principle from the newspaper or from

public hearings in the courtroom. It is one step more accurate. It will

correct the one conspicuous failure of

American journalism of publicity of

trials is right in democratic doctrine, the radio only carries it to its logical conclusion. Its eventual use for such a purpose is inevitable.

Now is this to be regretted. Legal institutions, says Dean Roscoe Pound, must make a radical readjustment to fit the changed conditions of modern urban life; we are striving to meet problems peculiar to modern industrial life with a criminal law and judicial institutions devised to fit rural conditions of generations ago. To the new facts of civilization, old customs continually must be adjusted.

These two reforms must be effected to safeguard American criminal justice. Drastic limitation of publicity before the trial must be accompanied by complete publicity of the trial itself.

PLAYING UP CRIME

Featuring the crimes of the country and failing to emphasize properly the value of men who are actually doing big things, is one of the saddest mistakes of the press.

Twenty columns of social errors, scandals, murders, hold-ups, business mistakes, official blunders, to one column of praise or recognition for the men who are contributing to our national progress.

Ten dirty shows to one clean entertainment.

The civic interest of any community can never rise higher than the co-operative workers in it—rise higher than the integrity of the individuals of the community, irrespective of religious belief.

In other words, every man or woman is held individually responsible to carrying out the convictions of a clear conscience, and to govern himself by the rules of right behavior. It is high time we gave less prominence to the criminal and more to the good, substantial citizen.—Trial News.

The Red Deer rink committee have raised \$3000 of the \$10,000 required for the erection of a skating rink in that town.

Mark Rogers was found dead in his bedroom at Lethbridge on Tuesday morning with a gun-shot wound in his head, believed to have been self-inflicted. Rogers was a well-known character throughout Southern Alberta and held a controlling interest in many large financial and industrial enterprises. He operated a farm near Lethbridge, on which he stocked large number of prize winning stock. During the past summer he has had under construction a large hotel at Wan-

derful. Some of the Lord's Day observers are now endeavoring to "stop the pay" of Sunday radio singers. Why not go further and stop the pay of the church organist and preacher and janitor?

TEACHERS FEDERATION VISITS WINDERMERE BUNGALOW CAMP

Here are seen a group of Ontario teachers members of the Canadian Teachers Federation, who, with colleagues from other provinces in Canada, attended the annual convention of the federation at Victoria, B.C. The Canadian Pacific provided special trains for their accommodation in both directions. Many of them returned via the Kettle Valley and the British Columbia Lake district, but this party preferred to pass through the Rockies again. They are seen at Windermere Bungalow Camp to which they made excursion. At Banff and Lake Louise they were entertained and local teachers organisations and Boards of Trade at many points along their west and east-bound tour turned out to greet the "Teachers Special" and to afford the delegates to the convention whatever entertainment time allowed. The next annual meeting of the Canadian Teachers Federation will be held in Toronto.

BLAIRMORE CITIZEN WRITES

Editor Enterprise:

Dear Sir—During the visit to Canada of the members of the British Scientific & Medical Association they discussed in Toronto one of the most vital subjects of today, namely "Birth Control."

It is a pity that they did not choose Blairemore as the place for this discussion to take place, and also invite several prominent residents for advice on this matter, for no doubt they would have listened to some remarkable speeches.

It is pathetic enough to anyone acquainted with Blairemore at all to see the large number of men in good positions still keeping to the so-called single blessedness state. And for population we have, or have had to, in

vite the sum of Europe to come over here and increase the population of Blairemore.

We have too many hotel-lounge lizards in the Pass, and Blairemore, especially,

They are of no material benefit to the country at all. To offset them, they should not be allowed to occupy any prominent positions. There is not the slightest excuse for it, for Blairemore contains some of the most beautiful, healthful and intelligent young ladies that it is possible for one to meet.

We will not deal with the married childless couple, for that is the most pathetic sight of all, and God knows Blairemore has enough of them.

"I suppose," said a neighbor, "that you will erect a monument to your dear husband's memory."

"To his memory," replied the widow.

Here and There

Moose hunting opened in the Province of Quebec on September 10th. Indications are that an unusually large number of hunters will invade the woods this fall and the rush for licenses is well under way.

Edward A. Patterson, mining engineer of London, England, visiting Nova Scotia, states that the mineral resources of that province are practically lying dormant and that with proper development along scientific lines, mining could be advanced to first place in the province's industry.

It is a pity that they did not choose Blairemore as the place for this discussion to take place, and also invite several prominent residents for advice on this matter, for no doubt they would have listened to some remarkable speeches.

It is pathetic enough to anyone acquainted with Blairemore at all to see the large number of men in good positions still keeping to the so-called single blessedness state. And for population we have, or have had to, in

vite the sum of Europe to come over here and increase the population of Blairemore.

THE MAN WHO IS SQUARE

"Passing the buck" when you're out of luck, started long ago; when Adam blamed Eve for the apple she gave the time he "stabbed his toe." Ever since then, in the ranks of men, taking them high or low, the coward at heart, who shirks his part, has tried to dodge the blow.

The man who aims high but fails to get by, and blames the fellow below, need never aspire to climb any higher—he's geared to travel "in low." There's always a place for the man with the grace to admit it when he is to blame; who says, "It's on me but, by Jiminy, it never can happen again!"

If you would succeed there is no better creed, than that of the man who is square: "I'll take what is mine, without whimper or whine; and above all else I'll be fair; so happen what may, at the close of each day, I can say to my God, 'T've been Square'."—By F. W. Jameson, in "Forward."

A clergyman, spending the winter in Los Angeles for his health, went to church the first Sunday after his arrival and later expressed his opinion of the service.

He was forced to sit through a long discussion on municipal politics delivered under the guise of being a sermon. At the close of the "sermon" the minister announced that when the service was over he would like to meet the board in the vestry.

The visitor, in company with several other solemn looking men, proceeded to walk towards the vestry. The minister, thinking there must be some mistake, tapped him on the shoulder and said, "I think you are mistaken, sir. This is a meeting of the board."

"Well," replied the visitor, "I have listened to your political views for more than an hour, and if anyone has been more bored than I have been, I should like to meet him."

Calgary, Alta., is planning an artificial ice rink because of the prevalence of chinooks in the winter, but the project will not be carried out in time for the coming carnival. Calgary had to abandon its scheme for an annual winter carnival because it could not count on weather that was cold enough or on snow.

The members of the band of the famous Princess Patricia's Canadian Light Infantry were among the passengers sailing for Eng land aboard the Canadian Pacific liner "Empress of France" on September 10th. Under the direction of Lieut. T. W. James, they are to play at the British Empire Exhibition at Wembley.

The Duke of Alba, 17th of that name and 10th Duke of Argyll, a member of the British nobility, together with the Duchess of Alba and several other distinguished Spaniards, are touring Canada over Canadian Pacific lines. Their itinerary includes Niagara Falls, Toronto, Banff, Lake Louise, Vancouver and Victoria.

Transformation for the better among the Eskimos in the last 25 years is almost unbelievable, said Bishop L. O. Stringer, of the Anglican church of the Yukon, reported on a recent visit to Edmonton, Alta. The Bishop attributes this improvement to the influence of the missionaries and the Royal Canadian Mounted Police.

The "Calgary process," the newest method of oil refining, was examined with interest by the members of the British Association for the Advancement of Science during their recent visit to Calgary, Alta. This process has become world-famous ever since the experiments conducted at the local Imperial oil refinery proved so successful.

Thousands of Belgians are waiting to cross the Atlantic to Canada as soon as the Dominion can assimilate them, it is reported by authorities in touch with the situation. Belgium's interest in Canada is further evidenced by the visit to the Dominion of Louis Strauss, veteran member of the diplomatic corps and member of the Belgian Parliament for Antwerp, who, as guest of E. W. Hartman, Chairman of the Canadian Pacific Railway, is touring the country studying economic conditions with a view to stimulating Belgian immigration.

It's Nice

It's nice to be a farmer, and to jazz along through life,
In your little old tin Henry, with your kiddies and your wife.

There's surely joy in this old world, when you get a big fat crop;
But when the rain forgets to come, it makes you step and hop.

It's nice to be a farmer, for you'll find a lot of sport;
In reading what the wise men say in the weekly crop report.

It makes you grin all over, when the pines begin to soar;
But it makes a poor guy wonder, when the storm shoots past his door.

"Deacon White," said Parson Jackson, softly, "will you lead us in prayer?"

There was no answer.

"Deacon White," this time a little louder, "will you lead?"

Still no response. Evidently the deacon was slumbering. Parson Jackson made a third appeal and raised his voice to a high pitch that succeeded in arousing the drowsy man.

"Deacon White, will you lead?"

The deacon, in bewilderment, rubbed his eyes and blurted: "Lead yourself—I just dealt."

You remember the story of the Scotchman who was not feeling as well as usual and called on his family doctor, who looked him over and gave him some pills to be taken at bedtime. A bottle of whisky was also prescribed for his stomach's sake—a small glass to be taken after each meal.

Four days later Sandy called again on the doctor and said that he was feeling no better.

"Have you taken the medicine exactly as I instructed?" the doctor enquired.

"Well, doctor," said Sandy, "I may be a wee bit behind w' the pills, but I'm about six weeks ahead w' the whisky."

WILL RESTORE AUTONOMY
OF DISTRICT TWENTY-SIX

SYDNEY, N.S., Sept. 26.—Immediate restoration of the autonomy of District 26, U. M. W. of A., has been decided upon by John L. Lewis, International President, according to bulletin posted by the Sydney Record today. The Record, which says its information is unofficial, but authoritative, declares, that a district convention is to be called and a district general election will take place five days after the close of the convention.

This means the immediate withdrawal of the International provisional officers, who have been in charge for the past year, thus leaving the miners of Nova Scotian free to again choose their own local leaders. As a result of this, Col. Gordon S. Harrington, K.C., has instructed his Halifax colleagues to withdraw an application made by them before Mr. Justice Christie, a few days ago, asking for an injunction to prevent the provisional officers from functioning further in this province. Col. Harrington explains that the action of Lewis has gained the same object, which was to get rid of the provisional officers, thus rendering further court action superfluous.

WEAR A POPPY CAMPAIGN

The G.W.V.A. seeks to bring home a proper spirit of national remembrance by the distribution of poppies, made by war crippled veterans in Alberta. The proceeds from the sale of these little tokens of remembrance provide "service to ex-service men" and thus faith is kept with those whose last thoughts were for their living loved ones. So, once again, the people of Canada are asked, in the words of Lord Byng of Vimy, to "honor the dead by caring for the living."

The G.W.V.A. is co-operating with the Department of Soldiers' Civil Re-Establishment, and by the assistance given by willing and able workers to make the campaign a huge success, more employment can be given each year to these disabled veterans in Alberta.

Our slogan is "Wear a Poppy on Armistice Day." If there is not a branch of the G.W.V.A. in your town, let the ladies get out and help, let them get together and form themselves into a committee for this purpose.

Poppies are available at the Headquarters of the G.W.V.A. in Alberta, 310 Dominion Bank Building, Calgary, and the Provincial Secretary will be pleased to supply information to anyone enquiring from him.

The Editor's Beatitudes

"Blessed are the merchants who advertise because they believe in it and in their business; for their prosperity shall increase manifold."

"Blessed are the country correspondents who send in their well-written items every week; for fame of their friendly neighborhoods shall go abroad in the land."

"Blessed is the woman who sends in a written account of a party or wedding; for she shall see the details of the function and the names of her guests correctly reported."

"Blessed are all those who do not expect the editor to know everything; but who call up and tell him whenever an interesting event occurs to them; for they shall have a newsway paper in their town."

"Blessed are they who get their copy in early; for they shall occupy a warm place in the editor's heart."

"Blessed are all those who co-operate with the editor in his efforts in behalf of the community; for their town shall be known far and wide as a good place in which to live."

Magistrate, after fining a Scotchman and a Jew who were found together in an intoxicated condition, turned to the clerk of the court asking:

"Where is the other prisoner?"

"There are only these two, your honor."

"Only these two—where is the man who paid for the drinks?"

About forty Oddfellows from Bellvue, Blairmore and Coleman went to Natal on Friday evening last, where they paid a visit to Michel Lodge and witnessed some excellent degree work.

Following a very interesting meeting, refreshments were served in an excellent style and a program of speeches, interspersed with music and singing followed, and was much enjoyed.

Livingstone Lodge, K. of P., was treated on Friday night last to a visit from a large number of Knights from Coleman and Hillcrest. A great competition resulted, in which teams from the visitors competed and some excellent work was put on.

Following the meeting refreshments were served, Messrs. Lorne and Gray acting as chefs. All voted the evening enjoyable and well worth while.

Miss Eva Morrison, of Picton, Nova Scotia, who claims the woman's swimming championship of Eastern Canada at ten miles, has challenged the women of the New England States to meet her in a swim to Boston light.

Just for good measure the Canadian said she felt sure she could beat any man who might wish to match strokes with her. At least two men will join in the race.

A Calgarian recently went out to the Alberta "wilds," around Chin to shoot ducks. Some fellows had been there before, for it took him several hours to sight a flock. He immediately blazed, waded in, brought out two. Upon reaching terra firma he was met by an irate farmer with a pitchfork, who demanded an explanation for the killing of his barnyard fowl. However, two dollars, a liberal sum of "two per cent (?) and ample apology converted what might have been an entry into a warm friend, who guided the novice to a good pond, and a bag of six wild ones.

TRADE PACT BETWEEN CANADA AND AUSTRALIA

Ottawa.—It is announced by the Prime Minister that the negotiations with Australia which have been carried on for several months by Hon. James A. Robt., Acting Minister of Finance, and Hon. Thos. A. Low, Minister of Trade and Commerce, have resulted in the conclusion of a trade agreement between the two dominions. The agreement is of a reciprocal nature, granting the dominions of Canada preference in many lines of export, in return for which Canada agrees to extend equally favorable treatment to various Australian products.

No details of the agreement which has been concluded were made public here and no indication was given of the products which would be granted preference by Australia or those which would receive favorable treatment in Canada.

"It is anticipated that the agreement will do much to encourage trade along reciprocal lines and to cement further the cordial relations existing between these two parts of the empire," states the official announcement.

Hard Problem For Turkey

COUNTRY HAD NO FUNDS TO INDEMNIFY TURKS RETURNING FROM GREECE

Constantinople.—Turkey has a hard problem on its hands in the 350,000 Turks sent back to Turkey from Greek territory in exchange for the 2,500 Greek subjects ejected from Asia Minor.

There is a lack of funds to indemnify the Turks who came back home and no money to meet their expenses and put them back on the land in Anatolia.

"Turkey for the Turks" still continues to be the slogan of Nationalist politicians. Anatolia has been torn by war for so many years that it offers poor returns to Turks who had been more fortunately located in Macedonia and other parts of Greece.

CAMPAGN Undertaken In U.S. Toward Maintaining Sugrave Manor

London.—The Sugrave Institution which administers Sugrave Manor, the ancestral home of George Washington, has been informed of the successful outcome of a campaign undertaken in the United States by the Society of Colonial Dames to raise an endowment fund of \$100,000, the income from which will be expended toward the maintenance of the ancient manor as a shrine of United States patriotism. No formal announcement of the gift has been made here.

Planning Trans-Pacific Flight

Project Being Discussed By Pacific Union, Honolulu

Honolulu.—Plans for a trans-Pacific flight by airplane from San Francisco to the Philippines and Australia, with several Pacific countries and the army and navy co-operating, were announced here by the Pan-Pacific Union. A visit might also be made to New Zealand. The purpose of the flight will be to study the possible establishment of five or more permanent air lines linking countries bordering on the Pacific Ocean.

Avalanche Sweeps Swiss Village

TWELVE HOUSES CRUSHED AND NUMBER OF INHABITANTS KILLED

Berne, Switzerland.—A landslide obliterated a large part of the mountain village Semeo, in the Tessin Canton, crushing twelve houses into ruin and partially burying them. Death toll was increased by a wild mountain stream which overflowed because of the landslide and inundated part of the village. A number of inhabitants were killed or swept away.

Prince In Favor Of Second Season At Wembley

London.—Great interest is expressed by the English press at the announcement that H.R.H. the Prince of Wales, when staying at Ottawa, will act in his capacity as President of the British Empire Exhibition, in trying to induce the Canadian Government to favor and support a second season at Wembley. It is recalled that the Prince, by his interviews with Right Hon. W. S. Fielding and Hon. Ernest Lapointe, of the Canadian Government, had much to do with securing Canada's original participation in the exhibition. The London Star designated the Prince "our uncommercial traveler."

Will Be Test Case

SHAREHOLDERS OF HOME BANK CLAIM GRAIN GROWERS' HOLDING NOT VALID

Toronto.—Arguments against the payment by shareholders in the defunct Home Bank of doubtful liability for the failure of the bank's assets will be heard here November 17 next.

One of the main points of contention will be argued at the hearing will be the question of the assets of the Banque Internationale which will be declared by counsel for the appeal to have been null and void. An expenditure of about \$300,000 is involved.

It is also alleged that all persons who hold shares sold by the Grain Growers' Grain Company, Limited, and the United Grain Growers are not shareholders in the Home Bank, because such shares were not validly created, issued or allotted.

The contestants also allege that the Home Bank entered into an "illegal, impudent, pernicious, imprudent, specifically vicious, vicious, fraudulent and ultra vires contract or agreement with the Home Savings and Loan Committee."

It is desired that there was not a bank in all, and that the half-million dollars paid for its assets can not be charged against the Home Bank shareholders.

A. W. Ballantyne, K.C., who is appearing for the liquidators of the Home Bank, stated that a test case would be made, and upon this the liability of the others would hinge. The cost of this test case would be paid out of the bank's estate. Messrs. Bain and O'Donnell will be counsel for the shareholders.

Always Pleased To Visit Western Canada

LOOKED FORWARD TO REST ON RANCH SAYS PRINCE

Winnipeg.—On his way to his ranch in Alberta, the Prince of Wales stopped off in Winnipeg for three hours. His presence was quite informal of a sort of ceremony. At the Canadian National station he was greeted by Mayor Farmer, who expressed his pleasure and the gratification of the citizens in general at the visit of His Royal Highness. The Prince said he was always pleased to visit Western Canada, and he was looking forward to the rest and recreation to be obtained on his ranch. A representative of Toe H. also was on the platform to greet the Prince, and there were present members of the railway staff and a few citizens.

Greco Preparing To Pay Debts

New York.—Greece is preparing to make a special mission to the United States to discuss debts and concluding arrangements for the gradual repayment and extinction of her war debt to the United States. It is to start immediately after the parliamentary elections next month, and will be headed, according to present arrangements, by George Roussos, the present Minister of Foreign Affairs.

Want Western Doctor

Saskatoon—One of the two vacancies on the Canadian National Railways Board of Directors should be filled by a Saskatchewan man, a Saskatoon Board of Trade delegate told the Press yesterday. He said it will probably be October 1. A large proportion of the C.N.R. lines lie in Saskatchewan and Alberta, but these provinces have no direct representation among the directors.

Manitoba Crops

Winnipeg.—There is decidedly more agricultural optimism in Manitoba than is usual at this time of the year, it is disclosed in a statement issued by the Provincial Department of Agriculture. A small percentage of grain remains to be cut, and in Southern Manitoba about 20 percent of the crop is threshed.

No Women Justices—The Legislative Council of the State of Victoria, by a vote of 28, rejected the Government's bill providing for the appointment of women as justices.

Ukraine Wants Second Season At Wembley

PROFITABLE TRADE ASSURED IF FINANCING CAN BE ARRANGED

Calgary, Alta.—Whether the Ukrainian Government will buy 1,000 horses in Alberta and Saskatchewan this fall depends on two factors, namely, its ability to satisfy the Dominion Government that it can guarantee the financing, and, second, its ability to make arrangements with the transportation companies.

The Ukraine wants the horses and has authorized Barney Hepburn, of Montreal, to make the purchases, but it has offered only \$25 a head for transportation from the point of purchase to Odessa, whereas it has been agreed that the transportation, which includes the insurance, will cost \$55 a head.

There is a great shortage of horses not only in the Ukraine but throughout Europe on account of the ravages of the war, and it is stated that the necessarily high costs of transportation and difficulties in arranging the financing, prevent a profitable trade with Western Canada.

BERLIN WOULD ENTER LEAGUE ON CONDITIONS

Berlin.—The German Government is drawing up a memorandum setting forth the conditions under which Germany may apply for membership in the League of Nations. The memorandum will be sent to all of the governments which are members of the League Council, and will set forth the German desires and conditions.

The memorandum, it is understood, will ask definite enlightenment as to whether Germany will be offered permanent seats in the council of the League and it will expressly declare that Germany's entry into the league would in no way imply reaffirmation of her war guilt.

It is also understood that the memorandum will request information as to the obligations Germany would undertake through membership, especially towards Russia, and that it might lead to hostilities.

The memorandum, which probably will be submitted to the Governments concerned at an early date, will first be examined by the cabinet and then by the Government of the federal states.

On this point the German Government contends that such transport would involve a breach of neutrality, especially towards Russia, and that it might lead to hostilities.

The memorandum, which probably will be submitted to the Governments concerned at an early date, will first be examined by the cabinet and then by the Government of the federal states.

New York Bankers Looking For Business

INTERESTED IN PROSPECTIVE BORROWING BY CANADIAN PROVINCES

New York.—The Tribune says that the bond market is much interested in projected Canadian financing. Quite an amount of new lending and new borrowing by the Canadian municipalities is in sight and New York bankers are hoping to get a large share of the total. The paper says that preliminary enquiries were reported in connection with a Manitoba refunding loan of \$17,000,000 and the City of Toronto asked for bids on a \$150,000 loan.

Settlers Leaving Drought Area

Edmonton—About 100 settlers' families have already moved out from drought-stricken areas in Southeastern Alberta to new locations in various parts of the province, and inquiries and applications are still coming in from the west. The area, it is said, is now well under way and is likely to assume somewhat large proportions, though still falling short of anything like a stampede.

Would Continue Act

Toronto.—The principals of the public schools have gone on record as favoring a continuance of the Ontario Temperance Act. Fear that easier access to intoxicants would increase the traffic fatalities among school children is given a prominent place in the preamble to the resolution.

Losses By Cattle Disease

Brussels.—The foot and mouth disease which is raging among the cattle of Belgium has thus far caused losses estimated at \$9,000,000 francs. In August, the total number of cattle affected was 145,392. A large number of hogs also were stricken.

To Make Speed Test

Washington.—The speediest automobile, the Shenandoah, will leave Lakewood, N.J., on October 3, for a "speed test" across the country, carrying her for the first time to the Pacific coast, the navy department announced.

Profitable Trade Assured If Financing Can Be Arranged

Calgary, Alta.—Whether the Ukrainian Government will buy 1,000 horses in Alberta and Saskatchewan this fall depends on two factors, namely, its ability to satisfy the Dominion Government that it can guarantee the financing, and, second, its ability to make arrangements with the transportation companies.

The Ukraine wants the horses and has authorized Barney Hepburn, of Montreal, to make the purchases, but it has offered only \$25 a head for transportation from the point of purchase to Odessa, whereas it has been agreed that the transportation, which includes the insurance, will cost \$55 a head.

There is a great shortage of horses not only in the Ukraine but throughout Europe on account of the ravages of the war, and it is stated that the necessarily high costs of transportation and difficulties in arranging the financing, prevent a profitable trade with Western Canada.

Border Smugglers Fined

THREE U.S. CITIZENS MUST ALSO PAY DOUBLE DUTY

Moose Jaw.—Customs officials are taking steps to check smuggling, which has been carried on a large scale in Southwest Saskatchewan. As the result of the activity of the Federal Immigration and Customs Officers, Norval Shuttleworth, of Diebold, N.D., and Ferdinand Schrimmer and Frank Bloomquist, also American citizens, were fined for failing to register their entry from the States. The three men also were fined under the inland revenue act. Bloomquist and Schrimmer, who operated their smuggling on a partnership basis, each fined \$50 and ordered to pay double duty.

Shuttleworth was found to have been smuggling radio sets into Canada. He was reprimanded and charged double duty on the sets.

C. Livingston, of Leitchville, near the border, was found guilty of bringing a number of automobiles into Canada and he was charged double duty.

British Navy Not At League's Disposal

HOME SECRETARY MAKES CLEAR STATEMENT TO DISPEL MISGIVINGS

Geneva.—The clear and precise statement of Arthur Henderson, British Home Secretary, on the attitude of the British delegation on the question of the use of the British fleet in enforcing an armistice, which was to have been signed by Captain J. S. Bertram, noted adventurer and Arctic explorer, would appear to be more definitely settled with the arrival of the steamer Arctic at this port.

That there is every reason to be enthusiastic over the almost limitless possibilities in regard to the mineral development of the north country, was the keynote of statements made by members of the expedition to the Canadian Press, the information being given to the press, in a short period of time, that the British Government will take steps to open and develop what are considered to be huge treasures in mineral ore.

F. D. Henderson, of the Northwest Territories and Yukon branch of the Department of Interior, stated in an interview, that although it would be a little premature to speak with exactitude as to the wealth of the northern islands, he and all concerned were strongly of the opinion that the resources there might prove to be of such a vast and wealthy nature as to astonish the civilized world. The Arctic went as far north as Cape Baird, on the northeastern coast of Greenland.

Study Canadian Methods

CANADIANS FOR FARMING METHODS BEING STUDIED BY AMERICAN OFFICIALS

Washington.—A special study of Canadian methods of fur farming is being made by the department of fur resources of the United States Biological Survey here. Dr. Donald Burt, of Philadelphia, told the Homeopathic Medical Society of Pennsylvania in an annual convention here. Dr. Burt said he had found that the Beta rather than the Gamma rays of radium accomplished the reduction of carcinous and other diseased tissues and the application of the new principle was constructive and not caustic or destructive "as is often the case in radiom treatments of cancer at present."

Commercial Negotiations Not Broken Off

Berlin.—The German Foreign Office has issued a statement explaining that the Anglo-German commercial negotiations had not broken down, as reported, but had only been postponed. They will be resumed shortly, the statement adds, with every prospect of a satisfactory conclusion.

VICTORIAN NURSES AWARD THIRTEEN SCHOLARSHIPS

Ottawa.—The central board of the Victorian Order of Nurses for Canada announces the award of thirteen scholarships of \$400 each, to well-qualified nurses, graduates of standard hospital training schools, which will enable them to take the university courses in public health at the several Canadian universities offering such a course. The awards for the university year 1924-25 includes Miss Hazel Braden, Edmonton, Alta., to the University of British Columbia.

Philippines Not Exempt

U.S. STATE DEPARTMENT RULES VIETNAMESE ACT MUST BE OBSERVED

Washington.—The eighteenth amendment to the United States constitution has stretched out its forbidding hands to the Philippines Islands. Under a legal decision holding shipment to the islands of liquor for beverage purposes to be contrary to the amendment, the State Department has instructed all United States consular offices to decline to clear vessels with such destination and cargo.

Disclosure that such orders had been issued last June was made by the department on receipt of dispatches from Manila indicating a belief on the part of Ferdinand Wood, that the Philippines were exempted from the Volstead Act, which a District Court of the Federal Immigration and Customs Officers, Norval Shuttleworth, of Diebold, N.D., and Ferdinand Schrimmer and Frank Bloomquist, also American citizens, were fined for failing to register their entry from the States. The three men also were fined under the inland revenue act. Bloomquist and Schrimmer, who operated their smuggling on a partnership basis, each fined \$50 and ordered to pay double duty.

Shuttleworth was found to have been smuggling radio sets into Canada. He was reprimanded and charged double duty on the sets.

C. Livingston, of Leitchville, near the border, was found guilty of bringing a number of automobiles into Canada and he was charged double duty.

MINERAL RICHES OF NORTH MAY BE EXPLOITED

QUEBEC—THE LONG DISCUSSED QUESTION AS TO WHETHER THE FOUNDATION OF CANADA WILL EVER BENEFIT MATERIALLY FROM THE MINERAL RICHES OF THE NORTHERN ISLANDS IN THE VICINITY OF THE ARCTIC CIRCLE, MANY OF WHICH HAVE BEEN CLAIMED FOR CANADA IN RECENT YEARS BY CAPTAIN J. S. BERTRAM, noted ADVENTURER AND ARCTIC EXPLORER, WOULD APPEAR TO BE MORE DEFINITELY SETTLED WITH THE ARRIVAL OF THE STEAMER ARCTIC AT THIS PORT.

That there is every reason to be enthusiastic over the almost limitless possibilities in regard to the mineral development of the north country, was the keynote of statements made by members of the expedition to the Canadian Press, the information being given to the press, in a short period of time, that the British Government will take steps to open and develop what are considered to be huge treasures in mineral ore.

POWERS ANNOUNCE THEY ARE NOT INTERFERING IN WARFARE IN CHINA

Peking.—The foreign legations have sent a memorandum to the Chinese Foreign Office and to General Chang Tsu-Lin, war lord of Manchuria, disclaiming any intention of interfering in the present hostilities between Chang and the Peking Government.

The memorandum, however, stated, that should foreign lives be lost and property destroyed, the Chinese authorities responsible would be held to account.

More Harvesters Needed

Winnipeg.—There is a known shortage of more than 2,000 harvest workers in Saskatchewan, according to R. W. Brewis, of Regina, representing the Saskatchewan Branch of the Labor Employment Service of Canada, and in five days here Mr. Brewis has been able to recruit only 100 men in his efforts to relieve the shortage.

BETTER TIMES ARE IN SIGHT FOR DOMINION

Ottawa.—Your children will live to see Vancouver the greatest city on the Pacific coast," declared Roger W. Babson, head of the Babson Statistical Organization, New York, in addressing the Ottawa Board of Trade.

"Europe has shot her bolt. The great trade is now with the Orient. The great market of the world will be on the Pacific rather than on the Atlantic," he added, in explaining his prophecy. "Canada," he added, "is destined to be a great exporting country. Your country has the greatest wealth of raw materials in the world. The thing for Canada to do is to determine to control the world markets by selling these fundamental natural resources. I believe I will live to see the day when the United States will not export one bushel of wheat. Canada will control the wheat market," he told Western Canada.

The prosperity of Canada does not depend ultimately on the banks and railways, but on the character and the basic religion of its men, women and children. Men of Canada, I think you will see the breaking of the dawn in 1925."

Surveying the business, financial and economic situation both in Canada and the United States, Mr. Babson affirmed that Canada was heading for better times. The readjustment now going on was from two-thirds to three-fourths completed, he said.

The facts on which he based his assertion, he said, were: That business failures for the first eight months of 1924 showed a 25 per cent. decline compared with the corresponding period of 1923; failures, with liabilities, had decreased 10 per cent.; exports had increased 8 per cent.; and imports decreased a like percentage; wage index was down five per cent.; building and commodity prices were down from 6 to 20 per cent.

Postal Strike Was Expensive

POSTMASTER GENERAL SAYS STRIKE COST CANADA \$399,000

Toronto.—Canada's loss by the postal strike of last summer was \$399,000, says Hon. Charles Murphy, Postmaster-General in reply to the Canadian Federation of Postal Employees, following an interview held in the office of the minister on September 11, when they urged reinstatement of 29 men who had been let go. In addition, Mr. Murphy says, there was further loss occasioned to individual citizens and to the public because of the dislocation of the service.

No great bags of ducks have yet been reported. The weather has been so summer-like that the birds have not yet left their summer haunts in the north.

American Consuls in Canada have recently been instructed to discontinue the practice of giving letters of introduction to persons about to visit the United States.

Tom Prentice, for many years manager and trusted employee of the Crows' Nest Trading Co. and A. Macdonald Co., of Fernie, has resigned his position.

Hon. K. C. MacDonald, Liberal, was defeated by Arthur O. Cochran in the North Okanagan by-election last week, by a majority of about 200. MacDonald had but recently been elected provincial treasurer of British Columbia.

J. F. Spalding, commissioner, stopped off here for a few minutes on Friday, on the way to Fernie from a trip over the Banff-Windermere highway. Arrangements are being made for the holding of the annual meeting of The Tourist Association of Southeastern British Columbia and Southern Alberta, which will take place this month at Fernie. Delegates are expected from points as far east as Winnipeg and west to Vancouver.

The Masonic District Meeting will convene in the local hall on Wednesday of next week. Grand Master Horace P. Reid, of Edmonton; Grand Secretary S. Y. Taylor, of Calgary; and delegates from Macleod, Pincher Creek, Hillcrest, Cowley and Coleman will be present. Following the meeting a grand banquet will be served at the opera house.

A shipment of liquor was intercepted by Sergt. Duncan near Crows' Nest on Tuesday morning and taken to Blairmore. The operator of the car was taken into custody, but was later released on bail of \$3000 to appear later for trial. We understand that Mr. McKinley Cameron, K.C., of Calgary, will defend the accused. The load of liquor is said to have been consigned to Sweet Grass and the man had regular transportation papers with him.

Obituary Notice

Fred Kroli died at Portland, Ore., U.S.A., Monday, September 29th, 1924, aged 24 years.

Funeral will take place from his parents' home, at Frank, on Saturday, October 4th, at 2 p.m.

Service at Frank Methodist Church, Interment in Blairmore Cemetery. Rev. W. T. Young will officiate.

L. O. D. E. MEETING

The first fall meeting of Crows' Nest Chapter of the L.O.D.E. will be held in the parlor of the Greenhill Hotel on Tuesday next, October the 7th, commencing at 7:30 p.m. All members are urged to attend.

The most agreeable of all campaigns is a simple, frank man without any high pretensions to an aggressive greatness; one who loves life and understands the use of it; obliging, alike at all hours; above all of a golden temper and steadfast as an anchor. For such a one we gladly exchange the greatest genius, the most brilliant wit, the profoundest thinker.—Lessing.

MR. TAYLOR STATTEN

Mr. Wallace Forgie, secretary of boys' work for the province, was in town last Friday long enough to meet boy leaders in The Pass and arrange for a conclave to be held at Bellevue on October 23rd, when Mr. Taylor Statton, of Toronto, Dominion leader of C.S.E.T. work, will be present.

A conference of leaders and boys' representatives will be held in the early afternoon and at 4:30 group game competitions will be held.

At supper hour the groups will have "eats" together, after which there will be competitions of other types and Mr. Statthen will speak.

JUVENILE TROPHY REACHES BLAIRMORE

The Menarey Cup, emblematic of the Juvenile Baseball Championship of the province, was delivered to Rev. W. T. Young on Saturday, to be held by the Tuxis Boys' team for one year.

This is the first year that a juvenile play-off has been carried through in this province, and it was made possible by Blairmore guaranteeing Calgary's expenses down here and playing all three games.

Boys all through the province find it difficult to finance, as support is poor for their games.

The present cup was won outright in an intermediate trophy by the Calgary Athletics and is presented by their manager to the juveniles as a perpetual trophy.

Blairmore is proud of its team of boys and will back them to a greater extent another year.

The trophy is now on exhibition in the window of the F. M. Thompson store.

BETAIL MERCHANTS ORGANIZE

At a well attended meeting of retail merchants, held in Blairmore on Friday night last, the Crows' Nest Pass-District Retail Merchants Association was organized. The executive is composed of one representative from each town in the district.

The object of the association is to protect the retail trade of the district.

There were present at the meeting Mr. Brougham, Dominion organizer from Vancouver; W. A. Fraser, of Pincher Creek, and James Kelas, of Edmonton, president and secretary, respectively, of the provincial association.

A dance will be given in the school house at Burns tomorrow evening under the auspices of the Burns Mine Boys. Royle's Orchestra will be in attendance.

Mr. and Mrs. Fred Doubt, of Spokane, were visiting their daughters, Mrs. A. Mando and Mrs. Wm. Trustwell, this week. Miss Annie Doubt, of Vancouver, who was visiting here also, accompanied her parents home, where she will remain for a short time before returning to the coast.—Trail News.
